

## Electrical Process Heaters

We manufacture Electrical Process Heaters. The diverse heating require tailor made solutions which we can provide. All our heaters are designed according the various international codes upon customer demand. The heaters can be delivered as a flange mounting for tank heating or as an inline flow though heater for heating up:

- Hot water
- Thermal oil
- Heavy fuel oil
- Marine Diesel oil
- Lubricating oil
- Air & Gas Heating Explosion Proof Terminals Cover are supplied on demand.

A complete control system with sensors and can be delivered with the heaters. In co-operation we design complete skids in which the heaters are integrated. Range: 3.0 KW to 212.5 KW
