

Replaceable Cartridge Immersion Heaters

[Replaceable Cartridge Immersion Heaters](#)

HEATCO Refractory Charged Replaceable Cartridge Immersion Heaters have been designed for horizontal operation. These are manufactured from chrome nickel steel tubes and fitted with terminal covers. The heating elements can be easily replaced.

Applications : heating of water, oils and paints.

Type	Wattage	Voltage	Immersion length (mm)	Flange (BSPP)
HC/0.5/10	500	230	254	1½"
HC/1/12	1000	230	305	1½"
HC/1.5/15	1500	230	381	1½"
HC/2/18	2000	230	457	1½"
HC/3/27	3000	230	686	2"
HC/4/48	4000	230	1220	2"

Vertically operated heaters are manufactured on request. Heaters can also be manufactured in different wattage and voltage ratings and sheathing materials.
